

IN THE CLAIMS:

Please cancel claims 1-2 without prejudice to or disclaimer of the subject matter recited therein.

Please add new claims 3-4 as follows:

LISTING OF CURRENT CLAIMS

Claims 1-2. (Canceled)

3. (New) A fan comprising:

- a) a frame body having a hole;
- b) a supporting part having a pivot and a plurality of guiding ribs, the supporting part being connected to the frame body by the plurality of guiding ribs; and

5

- c) a fan blade connected to the pivot,

wherein each of the plurality of guiding ribs has a cross section having two inclined flat surfaces located on opposing sides thereof, the two inclined flat surfaces having first ends spaced apart a first distance that is less than a second distance between second ends thereof, the first ends of the two inclined flat surfaces being located between the fan blade and the second ends of the two inclined flat surfaces,

10

wherein each of the plurality of guiding ribs are curved along a length thereof in a direction corresponding to a direction of air blown from the fan.

4. (New) The fan according to claim 4, wherein the first ends of the two inclined flat surfaces are closer to a center of the frame body than the second ends of the two inclined flat surfaces.
